

Woven Wonders

Focus Fabric or Scenery Fabric - MUST BE PREWASHED

My sample shows a beach scene with 3-D palm trees. Choose a print that has items which can be cut out & fused to create 3-D images. How much to buy? Enough for 3 or 4 repeats of the same print. Example: my fabric had a row of palm trees: so I purchased enough fabric to have 3 rows.

Fabric to be Woven - TWO 1/2 yd. contrasting fabrics (1/2 yd of each) - colors may be the same but there must be a difference in value so when the fabrics are woven you see the fruits of your labor.

Coordinating Fabrics: 1/4 yd. or fat quarters; How many? Not sure ... bring what you think you would like to use ... be open to creativity!.

1 yd. Heat & Bond Lite

1 yd. interfacing - light to medium weight

1 yd. Tear Away Stabilizer

Decorative thread - to match or contrast the Woven Fabric & The Focus Fabric's 3 -D Images

Regular thread - for piecing

Sewing Machine - manual, foot & cord

Rotary Cutting Equipment

Cut & Press Mat or a Pressing Surface that is thick enough to hold straight pins (At least 16-18" wide)

Straight Pins (flat head, heat resistant pins if available)

Basic Sewing Kit: bobbins (filled prior to class), machine needles, straight pins, scissors (both paper & fabric), seam ripper, pencil & notepad and masking tape)

Lunch & Beverage

Looking forward to being creative with you,

Diane
