Intermediate - advanced skills - 2 days

**Description:**

Learn techniques to handle gently curved pieced seams. Class project will focus on the traditional 2-fabric layout (choice of table runner or start a small wall hanging), or let the creative juices flow and use this intriguing design to create an original piece. Good piecing skills are required.

There is a supply fee of \$18 for the template set.

**Tentative schedule:**

1<sup>st</sup> day morning - learn techniques by constructing the basic unit

**Remaining class time:**

Work on the traditional version using two values, either two contrasting fabrics or one consistent light value with multiple dark fabrics (illustrated above).

OR

Use colored pencils to design variations on provided layout paper. Begin to piece your original design.

**Supplies:**

Machine in good working order

Machine foot with an edge flange (piecing foot with flange, edging foot, edge stitching foot, or Curve Master foot; if unavailable, methods to mark the machine will be demonstrated)

Stiletto

Rotary cutter (45 or 28mm) and mat

Thread for project

Colored pencils (for original design)

**Fabrics:**

For the traditional version

1 yd light fabric, 1 yd dark fabric

OR

1 yd light, several fat quarters or 1/4 yd pieces of darks

For the original version:

Several fat quarters (or quarter yard pieces or larger) each of lights, mediums and darks. Fabrics with motifs that can be isolated may also be used.
