

## Bobbinpalooza

What do you **need** for this class?

- A foot that gives you the capacity for free motion (darning foot) and the ability to drop or cover your feed dogs. PLEASE test this prior to signing up for the class.
- An extra bobbin case (you can purchase from your dealer). You need to loosen the tension thicker threads that will not go through the top. You do not have to purchase one if you are comfortable with adjusting your machine's bobbin case.
- If you have a machine with a drop in bobbin case, ask your dealer if your machine model has a replaceable case that can adjust the tension. I know some machines have this option. If not, we can bypass your bobbin tension with the thick threads.

### Supply List

- Well-oiled sewing machine in good working condition with zigzag stitch.
  - Walking foot that fits machine (please test first if not sure) and darning foot (for free motion quilting – again test to be sure it fits).
  - 2 empty bobbins
  - Make 6 “sandwiches” of: 16” muslin square, 16” cotton batting square, 16” muslin square. We will use these to practice our quilting. You do not need to pin these together.
  - Monofilament (invisible) nylon thread
  - Small screwdriver that comes with your machine
  - Small scissors or thread snips
  - Machine needles: 100/16 and 90/14 Topstitch
  - Assortment of threads – thick, thin, metallics, yarns. Please don't go out and buy anything special. I have plenty for you to try!
- Pen, pencil, and/or thin permanent marker to
